PROJECTS

Cinematheque

Cinematheque is a MERN application to fetch movie through tmdb API.
You can search movie with the help of TMDB catalog, create your own profile and save you favorite movies and save and delete them to and from the database.

To see the project:

https://vast-scrubland-34297.herokuapp.com/

Source code:

https://github.com/AmatoLuca/Cinematheque

Deplace Maison: clone website

I challenged my front-end knowledge cloning the work of a Pro Creative Developer: Niccolò Miranda.

To see the project:

https://frosty-kare-92a60d.netlify.app/

Source code:

https://github.com/AmatoLuca/Deplace-Maison-clone-website

Here I chose the application to replicate:

https://www.frontendpractice.com.

Factory worker

Mazzucchelli 1849
 21043, Castiglione Olona, Italy
 From November 2010 to January 2020.
Duty of laboratory colorist: sampling of cellulose acetate sheets; a plastic material traditionally used to the production of sunglasses and eyeglasses frames.
• Careful composition and mixing of powders for creation of new colors for seasonal collections at customers requests, which are prestigious bands in the field of eyewear.
The work requires precision and accuracy on the preparations as minimal changes to the ingredients could compromise weeks of work, as the prepared blends are engaged in the production chain for the final realization of the product.

HOW TO REACH ME

Tel: +39 3891985196

Email: amatoroccoluca@gmail.com

Address: Am Viehhof 8, 10247, Berlin, Via Gorizia 9, Venegono superiore, 21040, Varese
